Password	Optional	Used from Update with Windows Network and from Copy Visualization. The password of the login to the Windows NT Domain or to the given network share.	

Last change: 31. December 2006

<sup>1</sup> Here goes the host only.

<sup>2</sup> FQN = Fully Qualified Name, i.e. host.domain.net.

<sup>3</sup> Here goes the domain.net.

<sup>4</sup> DISCH Gateway IP will not work with proxy server, i.e. via port 3128.

<sup>5</sup> Same as EnablePlainTextPassword within Windows NT Registry.
